

⊛ A H file  
Apollo

November 27, 1961

Dr. Charles Stark Draper  
Director, Instrumentation Laboratory  
Massachusetts Institute of Technology  
Cambridge 39, Mass.

Dear Stark:

I have received your letter of November 21st in which you formally volunteer for service as a crew member on the Apollo mission to the moon. I will see that your request is brought to the attention of the proper agencies and will advise you regarding other steps which you might take to advance your cause.

It is most reassuring to have the Instrumentation Laboratory working with us on the Apollo project and the tremendous value of your own personal interest is most appreciated.

Sincerely,

Robert C. Seamans, Jr.  
Associate Administrator
